

Industrial Repair Services of Louisiana

YOUR ONE SOURCE FOR ALL YOUR CONTROL REPAIRS

PARTS AND REPAIR SERVICES FOR INSTRUMENTATION & CONTROL SYSTEM HARDWARE

We offer parts and repairs for most types of Control System Hardware to include Programmable Logic Controllers, Distributed Controllers, Supervisory Controls, Flow Controls, Boiler Controls and most others types of Instrumentation used in the plant environment. We offer parts for obsolete systems at a fraction of the cost that the Original Manufacturer charges. We not only help you reduce your costs for parts and repairs, we also help reduce your downtime and all of our repair services come with rapid turnaround, free estimates and one year warranties.
